

# A Simple Guide to Validate Your ParishPay Account

**It's that time of the year again! Year-End Reports and Tax Statements. Are you getting full accounting of your donations for 2017? Make sure your account is updated!**

## **PARISHPAY IS NOW WESHARE!**

You are receiving this email because you are a current donor who has been using ParishPay, our online giving service. Recently, ParishPay was acquired by WeShare of LPi. All of your personal information was transitioned securely and this service continues to be a safe and effective way of giving online.

Although all of your information was transferred to WeShare, we are asking you to please log into your account to validate and verify your WeShare account. It is very important that this process occurs as soon as possible so that you have access to your account and receive important emails and communications.

We ask that you log into your account for validation purposes, using the following link: [Insert your ParishPay direct link]

Click on the orange box that says "I've used ParishPay." You will need to provide the following information to verify your identity:

- Your ParishPay username.
- The bank account or credit card number associated with your ParishPay account that you've used within the last six months.
- The email registered with ParishPay OR information from your previous giving history.

If you have forgotten any of the above three items, please email WeShare directly at [weshare@4lpi.com](mailto:weshare@4lpi.com) and they can validate your account for you.
